

Curriculum Vitae - Graham Morby  
Full-Stack Developer

Lives: Portsmouth

Looking for: Permanent or contract, remote working roles only

About me:

I have been a developer now for 17 years, I have worked on personal projects way back on my Amiga 1200 right up to now as a full-stack Vuejs, Laravel developer. I have a huge passion for web development and learning all I can to progress in my career. I have keen insights into crypto-currency and also in my spare time, I'm a musician and love sports and walking my dogs.

Job History:

August 2021 – Present | Senior Full Stack Developer | Leighton

I work for multiple clients helping them build out the visions and business goals for a web-based platform

Bootstrap | CSS | HTML | Scrum | GitHub | SCSS | PHP | Vuejs | Laravel | Docker | Python | Flask

March 2020 – August 2021 | Senior Full Stack Developer | Move Mee

Using Vue.js and Laravel to build out a booking platform in the car rental industry. Using my knowledge and skills to produce a fast and stable app allowing users to log in, create, and manage accounts. All the front end is connected to an API using Restful calls and Oauth.

Bootstrap | CSS | HTML | Scrum | GitHub | SCSS | PHP | Vuejs | Laravel | Docker

June 2018 – March 2020 | Senior Full Stack Developer | Contractor

Working in various contracts in many different sectors including building ledger views and crypto dice games.

Bootstrap | CSS | HTML | Scrum | GitHub | SCSS | PHP | Vuejs | Laravel

Sept 2017 – June 2018 | Senior Full Stack Developer | Tech Dojo

Leading a team of developers to build a recruitment CRM in Vuejs and Laravel. I used scrum to monitor output and lead business expectations, Wakatime to measure code out and Laravel forge for deployments from bitbucket.

Bootstrap | CSS | HTML | Scrum | GitHub | SCSS | PHP | Vuejs | Laravel

Sept 2016 – Sept 2017 | Full stack developer | Lendy Ltd

Working for a P2P property lending company on their in-house CRM system. Using PHP and Bootstrap with a custom-built javascript library built on base.js.

Bootstrap | CSS | HTML | Scrum | GitHub | SCSS | PHP | base.js

Dec 2014 – Aug 2016 | Front end developer | Ultimate Pet Partners

.Net house building customer journeys to help buy pet insurance working with such clients as AA, Axa, Ultimate Pet Insurance, and Makerstudy. Using .net MVC 4 my job was to use razor syntax and javascript to build from design under an agile team.

Boorstrap | CSS | HTML | Scrum | GitHub | SCSS | Razor | .Net | MVC | Javascript | Angular

Sept 2014 – Dec 2014 | Front end developer | Just Develop It

Working on a do-it-yourself website builder, taking care of the brochureware and customer-facing sites. Working in a fully agile environment with Jira and daily stand-up meetings with in-depth retrospectives.

Foundation | CSS | HTML | Scrum | GitHub | SCSS | Jenkins | Gulp

Oct 2013 – Sept 2014 | Front end developer | Digital Incubator

I worked on bootstrap 3 websites in the motor industry. Producing clean code to service the MOT and car servicing trade, making sure all code was up to standards, and to good SEO practices.

Bootstrap | Codeigniter | CSS | HTML
